Communications

Keith Rose draws on a practical background in the IT and telecommunications businesses, with more than a decade of prior experience as a software developer and project manager, as well as a deep interest in the interfaces between law and technology in the real world, to identify and resolve legal problems. Keith advises clients on a range of technology and communications law issues including privacy and anti-spam compliance, intellectual property, e-commerce, and regulatory issues and acts for clients on a variety of transactions including licensing, procurement, and outsourcing.

RECENT TRANSACTIONS & ADVICE

Keith has recently acted for or advised:

- A financial services client in competitive procurement of long term strategic outsourcing services;
- A public sector client in procurements of a big data analytics platform and an enterprise web solution;
- A transportation sector client in establishing service agreements for design and operation of passenger WiFi services;
- Public sector clients on commercial and data protection issues arising from outsourcing and similar service arrangements, including developing strategies to meet business goals while complying with both public and private sector privacy legislation;
- A leading satellite service provider in regulatory policy consultations about licensing of non-geostationary satellite constellations and allocation of spectrum for 5G wireless services;
- Multiple automotive sector clients on IP and regulatory issues, including in-car communications systems and vehicle telematics;
- Utility sector organizations on regulatory issues relating to private virtual networks and access to public safety broadband spectrum;

- Various content and service providers on telecommunication and broadcasting regulatory matters; and
- Various device manufacturers in obtaining Canadian regulatory approval for wireless devices.

Keith received his B.Sc. (with Hons.) from the McGill University in 1993 and his M.Sc. from Queen's University in 1997, both in Physics. Prior to entering law school, he worked in the field of software and systems development, specializing in ground control systems for communications satellites. He received his JD, with an option in Law and Technology, from the University of Ottawa Law School in 2012. While at law school, Keith was awarded the University Silver Medal as well as numerous individual course prizes including the McCarthy Tétrault LLP Technology Law Award and the Beament Green prize in Advocacy.

Keith was called to the Ontario Bar in 2013. He is a member of the Law Society of Ontario, the International Association of Privacy Professionals, CAN-TECH, the Toronto Computer Lawyers Group, the Canadian Bar Association, and the Ontario Bar Association.
