t. 416-601-8960

Yongxun Jin is a Legal Applications Developer in our Toronto office. Yong relies on his knowledge and experience in software development and legal process to assist eDiscovery legal teams, firm lawyers, and clients in solving complex data issues and problems.

Before joining McCarthy Tétrault in 2021, Yong spent 6 years in the field of legal IT, helping to build and maintain legal applications. He enjoys broadening his programming skills and technical expertise in different industries, as well as staying up to date on cutting-edge technology.

Yong holds a Bachelor of Computer Science degree from the University of Manitoba and a Master of Finance degree from Queen's University.
