Barry Sookman is one of Canada's leading technology, copyright, privacy, and AI lawyer. He is a senior counsel with [McCarthy Tétrault](#) in the Toronto office. He is the former Co-Chair of the firm's Technology Law Group and was the head of the firm's Internet and Electronic Commerce Group. Prior to that, he was head of its Intellectual Property Group for six years.

Barry Sookman is the author of [several books](#) including the leading eight-volume treatise, Sookman: Computer, Internet and E-Commerce Law (Carswell, 1999-2023); Copyright: Cases and Commentary on the Canadian and International Law, co-authored with Steven Mason and Prof. Carys Craig (2nd. Ed. Carswell, 2013), Intellectual Property Law in Canada: Cases and Commentary, co-authored with Steven Mason and Dan Glover (2nd. Ed. Carswell 2013); Computer, Internet and E-Commerce Terms: Judicial, Legislative and Technical Definitions (Carswell, 2001-2022); and Sookman: Computer Law: Acquiring and Protecting Information Technology (Carswell, 1989-1999). He is a contributing author to the following books: Gordon Henderson's Copyright Law in Canada (Carswell, 1994); Barbara McIsaac's The Law of Privacy in Canada (Carswell, 2000-2003), which was published by McCarthy Tétrault authors; George Takach's The Software Business (McGraw Hill 1999); and Marco Giovanoli's International Monetary Law: Issues for the New Millennium (Oxford 2000).

Mr. Sookman is also an adjunct Professor who teaches intellectual property at Osgoode Hall Law School.

Mr. Sookman is very experienced in providing advice in connection with [complex information technology/intellectual property transactions](#) including outsourcing and other strategic procurement relationships, cloud computing, SAAS, joint venture transactions, and licensing. He has been involved as lead lawyer in Canada's biggest and most complicated domestic and international licencing, outsourcing and cloud computing deals and disputes. He regularly acts on transactions which must meet regulatory requirements including the OSFI-B10 Outsourcing Guideline and other applicable guidelines and advisories and privacy and data handling issues. He

Barry B. Sookman

Conseil principal

Toronto

t. +1 416-601-7949

also provides advice in connection with protecting and exploiting intellectual property and new media products.

Barry Sookman is also a leading Canadian lawyer with expertise in issues arising from the development, commercialization and use of artificial intelligence (AI) systems. This includes issues such as copyright, commercial, regulatory compliance, and ethical issues. Barry Sookman a member of the Wellness AI Ethics Committee (a B.C. Supercluster project) and is on the York University Connected Minds Advisory Board.

Mr Sookman is also very experienced in information technology and intellectual property issues that arise in military procurement contexts. This includes experience with the Standard Acquisition Clauses and Conditions (SACC), providing strategic advice in connection with defense procurements, responding to RFPs, supply chain challenges, and complex licensing terms for software and other high technology items.

He also has extensive experience assisting clients in conducting business over the Internet including drafting web site terms and conditions and meeting regulatory requirements such as for writings and signatures.

Barry Sookman also has a myriad of experience dealing with privacy and data protection issues including compliance with PIPEDA, and cross-border data flows. He is also one of Canada's leading lawyers on Canada's anti-spam law CASL. This includes giving advice in connection with CRTC investigations and in connection with CASL's private right of action.

Mr. Sookman is very experienced in intellectual property and information technology litigation and arbitration proceedings. He has extensive expertise in copyright matters including in anti-piracy, ISP liability, copyright enforcement, and infringement proceedings including infringements related to computer and entertainment software, software, music, books, databases, audiovisual and other works, technological protection measures, Internet disputes, license disputes, Crown copyright, rights clearances, and international copyright issues including copyright treaty compliance. He regularly advises clients on copyright issues and has testified numerous times before Parliamentary and Senate Committees on copyright, intellectual property trade, privacy and artificial intelligence related issues.
